

**District 5450 Policy on
Transfer of DDF to a Future Vision Pilot District
August 2010**

District 5450 will consider Club requests for DDF Transfers to Future Vision Districts under the following conditions:

- A District 5450 Club must request the DDF transfer in connection with a project that a Future Vision (FV) Club will be funding through a Global Grant.
- The DDF transferred will be considered a match to an equal amount of 5450 Club contributions to the project. As a result, the 5450 Club must provide documentation of the cash contribution to the FV Club before the DDF transfer is made, as well as a copy of the completed Global Grant application for the project.
- The 5450 Club agrees to provide to the District an annual report on the project until it is complete.
- All 5450 rules regarding DDF match will be followed (e.g., maximum contribution to a project, maximum DDF available per Club in a year, DDF still available, etc.)
- The District 5450 DG and the FV DG will adopt a side agreement confirming the use of DDF for the designated project.

The maximum DDF that will be available for transfer in 2010-2011 will be \$30,000.

District 5450 will review this policy in 2011-12 to consider changes as appropriate.
